# PRODUCT: PF10026 FIBREGLASS REPAIR KIT 236ML

FORM

### **SECTION 01: IDENTIFICATION**

Initial supplier identifier	Wyatt Machine Tools Rupes (NZ) Limited 388 Church Street, Penrose, Auckland, New Zealand PH: (09) 525 1000 Email: info@wyatt.co.nz Emergency number 0800 992 881 (0800WYATT1)
Product identifier	PF10026 FIBREGLASS REPAIR KIT 236ML
Recommended use and restrictions on	Automotive.
use Chemical family HMIS	Polyester resin solution. H: 2 F: 3 R: 1.
NFPA rating	Health: 2 Fire: 3 Reactivity: 1.
24 hour emergency number:	NZ Emergency 0800 992 881 (0800WYATT1).

#### **SECTION 02: HAZARD IDENTIFICATION**

Signal Word		
Eye Damage/Éye Irritation — Category 2A. Acute Toxicity (Inhalation) — Câtegory 4.         Specific Target Organ Toxicity — Single Exposure — Category 3. (Respiratory system).         Carcinogenicity — Category 2. Reproductive Toxicity — Category 2. Specific Target Organ Toxicity — Repeated Exposure — Category 1.         Hazard Description.       H226 Flammable liquid and vapour. H304 May be fatal if swallowed and enters airways.         H315 Causes skin irritation. H319 Causes serious eye irritation. H332 Harmful if inhaled.         H355 May cause respiratory irritation. H366 May cause drowsiness or dizziness. H351 This product contains ingredients that are suspected of causing cancer. H361 Suspected of damaging fertility or the unborn child. H372 Causes damage to organs through prolonged or repeated exposure.         Prevention.       P201 Obtain special instructions before use. P202 Do not handle this product until all safety instructions have been read and understood. P210 Keep away from heat, sparks, open flames and hot surfaces. No smoking. # **SECTION 04: FIRST-AID MEASURES**

Eye contact	In case of contact, immediately flush eyes, keeping eyelids open, with plenty of water for at least 15 minutes. Obtain medical attention.
Skin contact	Remove all contaminated clothing and immediately wash the exposed areas with copious amounts of water for a minimum of 30 minutes or up to 60 minutes for critical body areas. If irritation persists, seek medical attention.
Inhalation	If inhaled, remove to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give oxygen, obtain medical attention.
Ingestion	If ingestion is suspected, contact physician or poison control center immediately. If spontaneous vomiting occurs have victim lean forward with head down to prevent aspiration of fluid into the lungs. Never give anything by mouth to an unconscious person.
Most important symptoms and effects, whether acute or delayed	Harmful if swallowed, in contact with skin or if inhaled. May cause respiratory irritation. Causes skin and eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. Direct contact with eyes may cause temporary irritation. This product
Additional information	contains ingredients that may cause cancer. May damage fertility or the unborn child. Treat victims symptomatically. In the event of an incident involving this product ensure that medical authorities are provided a copy of this safety data sheet.

# **SECTION 05: FIRE-FIGHTING MEASURES**

Suitable extinguishing media Specific hazards arising from the hazardous product, such as the nature of any hazardous combustion products	"Alcohol" foam, CO2, dry chemical. Do not use water in a jet. Oxides of carbon (CO, CO2). Oxides of sulphur. Halogenated compounds. Metal oxides.
Special protective equipment andprecautions for fire-fighters	Cool fire-exposed containers with cold water spray. Heat will cause pressure buildup and may cause explosive rupture. Solvent vapours may be heavier than air and may build up and travel along the ground to an ignition source, which may result in a flash back to the source of the vapours. Firefighter should be equipped with self-contained breathing apparatus and full protective clothing to protect against potentially toxic and irritating

# SECTION 06: ACCIDENTAL RELEASE MEASURES

fumes

#### **SECTION 07: HANDLING AND STORAGE**

Precautions for safe handling	Keep away from heat, sparks, and open flame. Always adopt precautionary measures against build-up of static which may arise from appliances, handling and the containers in which product is packed. Ground handling equipment. Avoid all skin contact and ventilate adequately, otherwise wear an appropriate breathing apparatus. Avoid breathing vapours or mist. Handle and open container with care. Employees should wash hands and face before eating or drinking.
Conditions for safe storage, including any incompatibilities	Keep away from heat, sparks, and open flames. Keep container closed when not in use. Store away from oxidizing and reducing materials. Store away from sunlight.

# SECTION 08: EXPOSURE CONTROLS / PERSONAL PROTECTION

INGREDIENTS	TWA	ACGIH TLV STEL	PEL	OSHA PEL STEL	NIOSH REL
Styrene	20 ppm	40 ppm	100 ppm	Not established	100 ppm
	CA ON: 35ppm	ו (TWA), 100ppm (STEL)			
Methanol	200 ppm	250 ppm skin	200 ppm	Not established	200 ppm / STEL 250 ppm

ecis

# **SECTION 08: EXPOSURE CONTROLS / PERSONAL PROTECTION**

INGREDIENTS	ACGIH TLV TWA STEL	NIOSH REL
		1

CA ON: 200 ppm	(TWA), 250 ppm (STEL)
Personal Protective Equipment	
Respiratory/type	Local exhaust ventilation is recommended. Wear an appropriate, properly fitted respirator
Eye/type	when contaminant levels exceed the recommended exposure limits. Liquid chemical goggles. Chemical safety goggles and full faceshield if a splash hazard exists.
Gloves/ type	Chemical resistant gloves.
Clothing/type	Wear adequate protective clothes.
Footwear/type	Safety boots per local regulations.
Other/type	Emergency showers and eye wash stations should be available.
Appropriate engineering controls	Provide natural or mechanical ventilation to control exposure levels below airborne exposure limits. Local mechanical exhaust ventilation should be used at sources of air contamination, such as open process equipment, or during purging operations, to capture gases and fumes that may be emitted. Standard reference sources regarding industrial ventilation (ie. ACGIH industrial ventilation) should be consulted for guidance about adequate ventilation.

#### SECTION 09: PHYSICAL AND CHEMICAL PROPERTIES

Appearance/Physical state Colour	Liquid. Red. Aromatic. 0.01 - 0.1 (Styrene). 5 mm hg. @ 20°C. (styrene). 3.6 (Styrene). Not applicable. 9.18 lb/USG - 1.10. -30°C. 145°C. Slightly soluble in water. <1. 31. 490°C. 6.1. 1.1. Not available. 47.3. 0.79 lbs/USG. 2520 cps Spindle #4.
-------------------------------------	--

#### **SECTION 10: STABILITY AND REACTIVITY**

Chemical stability Reactivity	Stable at normal temperatures and pressures. Avoid heat, sparks and flames. Explosive reactions can occur in the presence of strong oxidizing agents.
Possibility of hazardous reactions Conditions to avoid, including static discharge, shock or vibration	
Hazardous decomposition products	Oxides of carbon (CO,CO2).

# SECTION 11: TOXICOLOGICAL INFORMATION

INGREDIENTS	L	_C50	LD50
Styrene	2	770 ppm 4 hr rat	5000 mg/kg (rat oral)
Methanol	1		420 mg/kg (oral); 5,628 mg/kg (rat oral); 15,800 mg/kg (rabbit dermal)
Effects of acute exposure		solvents in this product can be irr on, they may cause central nervou nausea, lightheadedness and dizz

SAFETY DATA SHEET

### PRODUCT: PF10026 FIBREGLASS REPAIR KIT 236ML

### **SECTION 11: TOXICOLOGICAL INFORMATION**

Effects of chronic exposure	Breathing high concentrations of vapour may cause anesthetic effects and serious health effects. Prolonged or repeated exposure may result in skin sensitization. Intentional misuse by deliberately concentrating and inhaling this product may be harmful or fatal.
Route of exposure	Eye contact. Skin contact. Inhalation.
Skin contact	Can cause moderate irritation, defatting and dermatitis. May cause sensitization by skin contact.
Skin absorption	Chronic skin exposure to solvents may cause effects similar to those identified under chronic inhalation.
Eye contact	Can cause redness, irritation, tissue destruction.
Inhalation (acute)	and itching of eyes, dryness of the throat and tightness in the chest. Breathing of high
Inhalation (chronic)	vapour concentrations may cause anesthetic effects and serious health effects. Chronic exposure to organic solvent vapors have been associated with various neurotoxic effects including permanent brain and/or nervous system damage, kidney, liver, blood damage and reproductive effects among women. Symptoms may include nausea, vomiting, abdominal pain, headache, impaired memory, loss of coordination, insomnia and breathing difficulties. Excessive inhalation of vapours can cause respiratory irritation, dizziness, headache, nausea and asphyxiation.
Ingestion	Aspiration of material into lungs can cause chemical pneumonitis which can be fatal. May be harmful or fatal if swallowed.
Carcinogenicity Reproductive effects Specific Target Organ Toxicity	Styrene is classified by IARC as a Group 2B carcinogen.
	main targets of styrene following repeated exposures.

### **SECTION 12: ECOLOGICAL INFORMATION**

Environmental
Persistence and degradability

Do not allow to enter waters, waste water or soil. Not available.

# SECTION 13: DISPOSAL CONSIDERATIONS

Information on safe handling for disposal.
and methods of disposal, including any
contaminated packaging

This material and its container must be disposed of as hazardous waste. Avoid release to the environment. Dispose of waste in accordance with all applicable Federal, Provincial/State and local regulations.

#### **SECTION 14: TRANSPORT INFORMATION**

TDG Classification	UN3269 - Polyester Resin Kit - Class 3 - Packing Group III - This product meets the criterial for Limited Quantity Exemptions when packaged in containers less than 5 litres .
DOT Classification (Road)	
IATA Classification (Air)	UN3269 - Polyester Resin Kit - Class 3 - Packing Group III. Limited Quantity. Do not ship
IMDG Classification (Marine)	by air without checking appropriate IATA regulations. UN3269 - Polyester Resin Kit - Class 3 - Packing Group III - EmS: F-E S-D. Limited Quantity. Check IMDG regulations for limited quantity exemptions.
Marine Pollutant Proof of Classification	No.

# **SECTION 15: REGULATORY INFORMATION**

CEPA status TSCA inventory status OSHA SARA Title III	On Domestic Substances List (DSL). All components are listed. This product is considered hazardous under the OSHA Hazard Communication Standard.
Section 302 - extremely hazardous substances	None.
Section 311/312 - hazard categories	
Section 313 EPA hazardous air pollutants (HAPS)	Methanol. Styrene.
40CFR63 California Proposition 65	*WARNING: This product contains a chemical known to the State of California to cause birth defects or other reproductive harm. *WARNING: This product contains a chemical known to the State of California to cause cancer.
(NZ) Statement	This substance is classified hazardous according to the EPA Hazardous Substances (Classification) Notice 2017.
(NZ) HSNO Classifications (NZ) HSNO Group Standard	3.1A. 6.1E. 6.3A. 6.4A. 6.1D. 6.7B. 6.8B. 6.9A.
