SAFETY DATA SHEET

Pro Form Products Ltd. 604 McGeachie Drive Milton, Ontario, L9T 3Y5 Canada 905-878-4990

PRODUCT: PF 17030 URETHANE ADHESIVE BLACK 3.5MIN

FORM

SECTION 01: IDENTIFICATION

| Initial supplier identifier | Wyatt Machine Tools Rupes (NZ) Limited 388 Church Street, Penrose, Auckland, New Zealand PH: (09) 525 1000 Email: info@wyatt.co.nz Emergency number 0800 992 881 (0800WYATT1) |
|---|---|
| Product identifier Recommended use and restrictions on | PF 17030 URETHANE ADHESIVE BLACK 3.5MIN |
| use Chemical family | |
| Hazard rating NFPA rating HMIS 24 hour emergency number: | H: 3 F: 1 R: 0. |

SECTION 02: HAZARD IDENTIFICATION

| Signal Word Hazard Classification | Skin Corrosion/Irritation — Category 2. Sensitization - Skin — Category 1. Eye Irritant 2. Specific Target Organ Toxicity — Repeated Exposure — Category 1. Sensitization - |
|--------------------------------------|---|
| Hazard Description | serious eye irritation. H372 Causes damage to the liver and kidneys through prolonged or repeated exposure. H334 May cause allergy or asthma symptoms or breathing difficulties if |
| Prevention | inhaled. P201 Obtain special instructions before use. P202 Do not handle this product until all safety instructions have been read and understood. P260 Do not breathe mist, vapours, or spray. P261 Avoid breathing mists, vapours and sprays. P264 Wash thoroughly after handling. P270 Do not eat drink or smoke while using this product. P272 Contaminated work clothing should not be allowed out of the workplace. P280 Wear protective gloves and eye protection. P284 In case of inadequate ventilation wear respiratory protection. |
| Response | P302 + P352 - If on skin: wash with plenty of water. P304 + P340 - If inhaled remove person to fresh air and keep comfortable for breathing. P305 + P351 + P338 If in eyes rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing until medical help arrives. P321 - For specific treatment see section 4 on this SDS. P333 + P313 If skin irritation or rash occurs, get medical advice/attention. P337 + P313 - If eye irritation persists get medical attention. P342 + P311 If experiencing respiratory symptoms; call poison center or doctor. P362 + P364 - Take off contaminated clothing and wash before reuse. |
| Storage Disposal | P405 Štore locked up. |

| SECTION 03: COMPOSITION / INFORMATION ON INGREDIENTS | | | |
|--|------------|-------|--|
| CHEMICAL NAME AND SYNONYMS | CAS # | WT. % | |
| PART A: | | | |
| Benzene, 1,1'-methylenebis[4-isocyanato- (MDI) | 101-68-8 | 30-40 | |
| Talc | 14807-96-6 | 10-15 | |
| 2,4-Diphenylmethane diidocyante (MDI) | 5873-54-1 | 0.5-1 | |
| PART B: | | | |
| PIPERAZINE | 110-85-0 | 0.5-1 | |

ΓΕCIS

SECTION 04: FIRST-AID MEASURES

| Eye contact | In case of contact, immediately flush eyes, keeping eyelids open, with plenty of water for at |
|------------------------|---|
| | least 15 minutes. Check for and remove any contact lenses, if safe and easy to do so. |
| Chin contact | Obtain medical attention. |
| Skin contact | Immediately flush skin with plenty of soap and water. Remove contaminated clothing. |
| | Wash clothing before reuse. Do not peel solidified product off the skin. If irritation persists, |
| | seek medical attention. |
| Inhalation | If inhaled, remove to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give oxygen, obtain medical attention. |
| Ingestion | Do not induce vomiting. Never give anything by mouth to an unconscious person. If |
| • | spontaneous vomiting occurs have victim lean forward with head down to prevent |
| | aspiration of fluid into the lungs. Get medical attention. |
| Additional information | Eye: stain for evidence of corneal injury. If cornea is burned, instill antibiotic steroid |
| | preparation frequently. Workplace vapours have produced reversible corneal epithelial |
| | edema impairing vision. Skin: this compound is a known skin sensitizer. Treat |
| | symptomatically as for contact dermatitis or thermal burns. If burned, treat as thermal burn. |
| | Respiratory: this compound is a known pulmonary sensitizer. Treatment is essentially |
| | symptomatic. An individual having a skin or pulmonary sensitization reaction to this |
| | material should be removed from exposure to any isocyanate. In the event of an incident |
| | involving this product ensure that medical authorities are provided a copy of this safety |
| | data sheet. In all cases, if irritation persists seek medical attention. |

SECTION 05: FIRE-FIGHTING MEASURES

| Suitable extinguishing media Specific hazards arising from the hazardous product, such as the nature of any hazardous combustion products | |
|--|--|
| Special protective equipment and precautions for fire-fighters | Firefighter should be equipped with self-contained breathing apparatus and full protective clothing to protect against potentially toxic and irritating fumes. During a fire, isocyanate vapours and other irritating, highly toxic gases may be generated by thermal decomposition or combustion. Cool fire-exposed containers with cold water spray. Heat will cause pressure buildup and may cause explosive rupture. Heat will cause pressure buildup and may cause explosive rupture. |
| Unusual fire / explosion hazards | |

SECTION 06: ACCIDENTAL RELEASE MEASURES

| Leak/spill | Isolate area and keep unauthorized people away. Do not walk through spilled material. Wear recommended protective equipment. Ventilate. Open windows and doors to allow air circulation. Dike area to prevent spreading. The use of absorbent socks or spill pillows may be required. Stop leak if safe to do so. Prevent runoff into drains, sewers, and other waterways. Use an aqueous solution of ammonia or other suitable isocyante neutralizing solution to clean up any unreacted prepolymer residue. Do not use neutralizing solution on large spills as heat may be generated. Use a Swype test kit to test for residual |
|--------------|--|
| Major spills | isocyanates If temporary control of isocyanate vapour is required, a blanket of protein foam may be placed over spill. If transportation spill occurs in United States, call Chemtrec 1-800-424-9300. If transportation spill occurs in Canada, call Canutec at (613) 996-6666. |
| Clean up | Large quantities may be pumped into closed, but not sealed, containers for disposal. |

SECTION 07: HANDLING AND STORAGE

| Precautions for safe handling | ventilation. Decomposition products can be highly toxic and irritating. Individuals with lung or breathing problems or prior allergic reactions to isocyanates must not be exposed to vapour or spray mist. Warning properties (irritation of the eyes, nose and throat or odour) are not adequate to prevent chronic overexposure from inhalation. Handle in accordance with good industrial hygiene and safety practices. Wash thoroughly after handling. Wear respiratory protection if material is heated, sprayed, used in confined space, or if exposure limit is exceeded. Employee education and training are important. |
|--|--|
| Conditions for safe storage, including any incompatibilities | Store in tightly closed containers to prevent moisture contamination. Store in a cool, dry and well ventilated area. Do not reseal if contamination is suspected. Exposure to vapours of heated isocyanates can be extremely dangerous. |

PRODUCT: PF 17030 URETHANE ADHESIVE BLACK 3.5MIN

SECTION 08: EXPOSURE CONTROLS / PERSONAL PROTECTION

| INGREDIENTS | TWA | CGIH TLV STEL | OSH PEL | IA PEL STEL | NIOSH REL |
|---|-----------------|--|-----------------------|--|-----------------|
| Benzene, 1,1'-methylenebis[4-isocy anato- (MDI) | 0.005 ppm | Not available | 0.005 ppm TWA | 0.005 ppm AB OEL TWA | 0.05 mg/m3 |

| Gloves/ type | | Chemical resistant gloves: butyl rubber, nitrile rubber, neoprene, PVC. Practice good hygiene, wash thoroughly before handling any food. | | | |
| Clothing/type Wear adequate | | Wear adequate protective exposure. | ve clothes. Wear long | sleeves and trousers to | prevent dermal |
| Footwear/type Other/type Appropriate engineering controls Appropriate engineering controls Vert work area to ensure vert work area to ensure exposure limits. Avoid b | | egulations. mergency shower should be in close proximity. Educate and train use and handling of the product. systems used to ventilate corrosive storage or process areas must onents that are corrosion resistant. Ventilate adequately. Exhaust ned by scrubbers or filters to reduce environmental contamination. re airborne concentrations are below the current occupational preathing mists; if general ventilation or local exhaust is inadequate, ats should wear approved breathing devices. | | | |

SECTION 09: PHYSICAL AND CHEMICAL PROPERTIES

| Appearance/Physical state Colour | Part A:. Beige. | Part B:. Liquid. Part B:. No data. |
|---|--|--|
| Odour Odour threshold (ppm) Vapour pressure (mm Hg) Vapour density (air=1) | Part A:. Not available. Part A:. <0.013 hPa @ 77°F/25°C. | Part B: . No data. Part B:. < 3 hPa @ 77°F/25°C . Part B:. ≥1. |
| pH Relative Density (Specific Gravity) | Part A: . No data. Part A:. 1.288 g/cm3 @ 20°C - 10.72 lb | |
| Melting / Freezing point (deg C) Solubility. | Part A:. Practically insoluble in water. | Part B: . No data. |
| Initial boiling point / boiling range (deg C). Evaporation rate Flash point (deg C), method | Part A: . <1. (butyl acetate = 1). Part A:. >100°C, >212°F. | Part B:. >93.4°C, >200°F . |
| Auto ignition temperature (deg C) Upper flammable limit (% vol) Lower flammable limit (% vol) | Part A: . No data. | Part B:. No data. Part B: . No Data. Part B: . No data. |
| Partition coefficient — n-octanol/water VOC LBS/GAL less water Viscosity | Part A: . 2.55 lb/USG - 305.57 g/L. | Part B: . No data. Part B: . No data. Part B: . No data. |

ECIS

PRODUCT: PF 17030 URETHANE ADHESIVE BLACK 3.5MIN

SECTION 10: STABILITY AND REACTIVITY

| discharge, shock or vibration Hazardous decomposition products | Excessive heat, flames and sparks, exposure to air and moisture. |
|---|--|
|---|--|

SECTION 11: TOXICOLOGICAL INFORMATION

| INGREDIENTS | | LC50 | LD50 |
|--|---|---------------------------------|---|
| Benzene, 1,1'-methylenebis[4-isocyanato- (N | 1DI) | 490 mg/m3 4 hr 0.369 mg/L 4 hr | 9,200 mg/kg rat oral >7,900 mg/kg rabbit dermal |
| Talc | | Not available | Not available |
| 2,4-Diphenylmethane diidocyante (MDI) | | No data | No data |
| PIPERAZINE | | No data | 1,900 mg/kg oral rat; 4,000 mg/kg dermal rabbit |
| Route of exposure Effects of acute exposure | Eye contact. Skin contact. Inhalation. SKIN: Irritant. Can cause reddening, itching and swelling. May cause allergic reaction to skin. Contact with fibrous glass or its dust can cause skin irritation. EYE: Product liquid, aerosols or vapours are irritating. Can cause tearing, reddening and swelling. INHALATION: Breathing this material may be harmful or fatal. Vapour/mists at concentrations above the exposure limits can irritate (burning sensation) the mucous membranes in the respiratory tract. This can cause a runny nose, sore throat, coughing, chest discomfort, difficulty breathing and reduced pulmonary functioning. INGESTION: Swallowing this material may be harmful or fatal. Symptoms can include severe stomach and intestinal irritation, abdominal pain and vomiting of blood. | | |
| Carcinogenicity | below the recommended exposure limits, if applicable. None of the components present in this material at concentrations equal to or greater than 0.1% are listed by IARC, NTP, OSHA or ACGIH as a carcinogen. | | rations equal to or greater than |
| Reproductive effects | This material (or a component) has been shown to cause harm to the fetus in laboratory animal studies. Harm to the fetus occurs only at exposure levels that harm the pregnant animal. The relevance of these findings to humans is uncertain. | | arm to the fetus in laboratory evels that harm the pregnant |
| Note | Preexisting disorders of | many types may be aggravated by | exposure to this material. |

SECTION 12: ECOLOGICAL INFORMATION

| Environmental | Do not allow to enter waters, waste water or soil. |
|-------------------------------|--|
| Persistence and degradability | Not available. |

SECTION 13: DISPOSAL CONSIDERATIONS

Information on safe handling for disposal . and methods of disposal, including any contaminated packaging

Dispose of waste in accordance with all applicable federal, provincial/State and local regulations. Industrial incineration is the preferred method. Empty containers retain product residue; observe all precautions for the product. Decontaminate containers prior to disposal. Empty decontaminated containers should be crushed to prevent reuse. Do not heat or cut empty containers with electric or gas torch as vapours and gases may be toxic.

SECTION 14: TRANSPORT INFORMATION

| TDG Classification | Not regulated. |
|------------------------------|--|
| IATA Classification (Air) | Not regulated. |
| IMDG Classification (Marine) | Not regulated. |
| Marine Pollutant | Potential marine pollutant. |
| Proof of Classification | In accordance with Part 2.2.1 of the Transportation of Dangerous Goods Regulations (July |
| | 2. 2014) - we certify that classification of this product is correct. |

SECTION 15: REGULATORY INFORMATION

| CEPA status TSCA inventory status OSHA SARA Title III | On Domestic Substances List (DSL). All components are listed. This product is considered hazardous under the OSHA Hazard Communication Standard. |
|--|--|
| Section 302 - extremely hazardous substances | None. |
| Section 311/312 - hazard categories Section 313 EPA hazardous air pollutants (HAPS) 40CFR63 | 4,4'-methylenediphenyl diisocyanate. |
| California Proposition 65 (NZ) Statement | |
| (NZ) HSNO Classifications (NZ) HSNO Group Standard | 6.5A. 6.5B. 6.4A. 6.3A. 6.1D. 6.1E. 6.9B. Surface Coatings/Colourants - Subsidiary HSR002670. |
